I. Summary

All the system functions of the three new models of qin EV(2017 model), S7(2017 model) and aliphatic (2015 model) are added.

II. New Functions

1. Added 126 system basic functions and special functions for three models of Qin EV (2017), S7 (2017) and Surui(2015).

2. Added first generation F3 engine controller _473DCT, engine controller _473DCTSS, engine controller _ Delphi MT22, engine controller _ UMC M79, wheel anti-lock braking system (Bosch ABS9), basic functions of airbag system And special features.

3. New second-generation F3 models Engine controller _ UMC M787_CAN basic functions and special functions.

4. New Speed SuRui (universal models) models Dual clutch transmission _TI adapter, body control system, CD machine assembly basic functions and special functions.

5. Added E5 model Battery management system _ South American version, battery management system _ water cooling, body controller (second generation), parking assist system (second generation) basic functions and special functions.

6. Added E6Y models VTOG_DSP2, VTOG_ mode, VTOG_ charging, VTOG_ driving basic functions and special functions.

7. Added F0 model BU100 EFI basic functions and special functions.

8. Added S6 model engine controller _ UMC M7971, vehicle anti-lock braking system (ABS8), vehicle

anti-lock braking system (ABS9) basic functions and special functions.

9. Added S7 (2014 models) 1.5TID EFI, 2.0TID EFI basic functions and special functions.

10. Added G5 model Engine controller _1.5TID basic function and special function.

11. New G6 model Engine controller _ UMC M79, engine controller _ UMC ME1788, engine controller 1.5T_ without cruise, engine controller 1.5T_ with cruise basic functions and special functions.

12. Added Tang (2017 models) Battery Management System _ ternary 100 basic functions and special functions.

13. Added Song DM model Battery Management System _ ternary 80_BSG basic functions and special functions.

14. Increase the special functions commonly used in 40 models such as Qin, Tang, Song, Yuan, F3 and E6.

III. Optimized Functions
None
IV. Fixed Bugs
None
